

# MEASURES

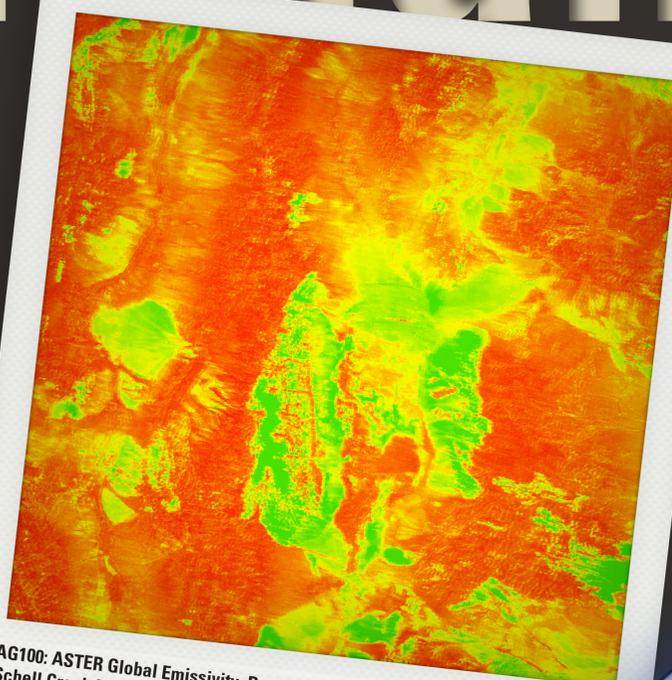

**WELDUSYR: NASA Web-Enabled Landsat Data (WELD) CONUS Annual**  
Yosemite National Park, California, 2012

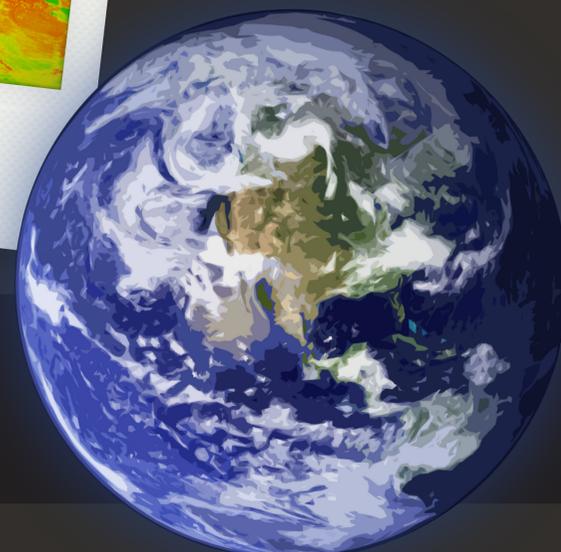

**SRTMGL1: NASA Shuttle Radar Topography (SRTM) Global 1 arc second**  
The Alps, Switzerland

# Community

**AG100: ASTER Global Emissivity Dataset 100 meter**  
Schell Creek Range, Nevada

The LP DAAC works with NASA MEASURES projects to facilitate the introduction of long-term, consistent, high quality data records to the land remote sensing community. The LP DAAC also works with selected science investigators to distribute Community Products, which are land data products derived from one or more of NASA's Earth Observing System missions.
